

Thursday 10th October

~~the dragons~~ Habitat
is in a cave
where
the dragons live

The dragons habitat is a cold, wet, gloomy cave.

The cave is in the

FRONTIS PITCH

BLACK FOREST

place

The cave is in the overgrown forest which is a pitch black, soaking wet place.

The forest and the cave are in cold, misty, a mysterious climate.

In the mossy, misty woodland is where you will find the cave.

In the mossy, misty woodland is where you will find the cave.
