Odd is a very strange and unique boy. He was born in a quite small

Norwegian village and lives with his loving Scottish mum and

alcohol addicted
Viking step-dad, as well as his ^{stubborn} stubborn step-siblings. Odd is a very

unlucky boy as his biological father died at sea by saving a pony; ^{stubborn}

when Odd was 10 (he is now 12). The relationship with his mother is

it quite complex now that his father is no longer around.

Some ^{say the} villagers where he lives have little respect for him and

others think he's an outcast. One day Odd takes himself off

to his father's cabin in the woods to be alone; being by himself

and ^{make him the} seems to be most happy and remembering memories from his
dad.
