Dear EIAN Epworth,

I am ~~amazingly~~ writing to you about you trying to demolish our beautiful land and this area is super important to everyone who depends on this land to survive.

first of all, we need the school we need to learn our maths, english, science, geography, music and other important subjects we need to ~~invest~~ ^{invest} our money for our town and your super market.

as well we need our trees to breathe to make oxygen for us and get carbon dioxide out of our blood ~~to make~~ ^{if} there are no trees it ^{may} be possible the other areas of the place and the animals will ~~die~~ ^{die} or get stuck in the pollution and rubbish.

Next, we have to not demolish dorer castle its our towns history, our history lessons take trips there for we can learn in those times in the old times and 100 years and we couldn't live without it.

as well we need our homes to have warmth, food, shelter we would get sick and would be homeless please don't demolish our homes.

animals once important or it would be unhappy world to live in what would you see! if we grow plants but we animals to have a happy life.

Yours sincerely,
