

The Magnificent Teacher

Mr Stee whose maiden name is Tracey Patch was born on the 3rd of January 1965, she lived with her 2 older siblings, Steven and Sharon, in her parents cottage in Somerset.

She attended Cresset Primary 5 years later. Once when her mum bought her a new dress she wanted to go climbing in an orchard tree and her dress got caught, she was left hanging her mum, as not happy when she found out.

Tracey moved on to Toynton Secondary. There she loved going to the canteen with her friends Caroline and Jo (whose nickname is boggy) she liked netball, basket ball and also doing the 100 metres. Her dad really wanted her to be a scientist so she studied biochemistry at Warwick University.

Tracey went from studying biochemistry to bringing a name in America for 2 years, then she became a teacher in Cambridge. She lived in Cambridge with her husband Nick, they had 2 children there - Bryn and Ella who are 26 and 28 years old now (Ella has 2 children in Ashcroft (3)).

She became a teacher in 2003 with no support. She taught at Petham Forat for 10 years then moved to Goston in 2013 and became sen. co. In 2021 she became assistant head. She met her in year 1 (2020-2021) and she's still here, I know her still in year 5 I think she's gotten better at teaching.
