

The Yetis

My name is Ashley Anderson. I was sitting in the dark cabin, alone. I felt hungry, cold and worried. I was shivering and Uncle Sung left to hunt for food. While I watched the fire dancing around, there was a loud bang. I was frightened and cold. My eyes opened wide and I slowly took a step back. I shouted "Go away! Please!" There was silence. I got scared but I was brave! So I ran to the door and opened it. There I saw furious wolves. As soon as I saw them, I shut the door. I was terrified. I began to sink on the floor, slowly. I...

I fell asleep. Soon after I woke up with hot breath in my face. I slowly opened my eyes thinking "Uncle Sung? Is that you?" When I looked at this mysterious creature I was surprised. I saw long red fur, wrinkled skin and dark mysterious eyes. The creature was hairy but mostly gigantic. There wasn't only one but there were two! The other mysterious creature looked much older. One of the creatures picked me up and carried me outside. After a while I realised that this creature was a Yeti!

The Yetis took me to a beautiful forest. The Yeti put me down. I felt warm after a long time.
